
ELVIN QƏDIRLI | FRONT-END DEVELOPER

PROFESSIONAL SUMMARY

Since 2022, I am a Front-End programmer working in the field of web programming and striving for continuous development. I code web applications and pages with modern Front-End technologies. I am open to continuous learning, producing innovative solutions and teamwork.

PROFESSIONAL EXPERIENCE

Software Village

Front-End Mentor | 02 February, 2023 - Present

- The courses teach HTML, CSS (SCSS), Bootstrap, JavaScript, React, GitHub, and the ability to build responsive websites. We also learn how to work with APIs. In the practical part of the course, homeworks are given on the topics taught and I help students solve the problems they experience during the coding process.
- Course mentor in front-end bootcamps
- Instructor in special Front-end courses
